

## ARIS Software announces its 25<sup>th</sup> Anniversary User Conference

**Rancho Cucamonga, CA, September 10, 2009** - ARIS Software LLC, a leading developer of convergent Billing CRM, POS, Terms Management and Operational Support Software for wireline, wireless and internet carriers and service providers, announces its Annual User Conference "Sailing to Success" to be held October 11 - 16, 2009.

Users of ENVISION software world-wide will meet in Miami and, following a day of on-shore social activities, will board the 800 ft + Norwegian Sky for a four 4 day cruise to the Bahamas. Stopovers include Freeport / Lucaya, Nassau and Great Stirrup Cay, a private island owned by the Norwegian cruise line.

While at sea, attendees will meet in a relaxed environment of key topic presentations, new feature unveilings, private meetings and shared ideas and can openly discuss their evolving feature and support requirements. According to as company spokesperson "The agenda has been designed to give all attendees a genuine sense of accomplishment that includes valuable new product knowledge and new ways in which to utilize ENVISIONS ability to be more efficient, competitive and profitable".

In addition, the conference has been timed to coincide with ARIS' 25<sup>th</sup> anniversary. So, this milestone in the company's history will be celebrated in a number of related on-shore and on board gatherings. Also, on the session's final day, everyone will board a tender to Great Stirrup Cay for a Caribbean style barbecue and beach party. Parasailing, kayaking, beach volleyball, snorkeling and just plain fun will be among the activities enjoyed by all.

### **About ARIS:**

Founded October 24<sup>th</sup> 1984, ARIS has provided software and related services for more than 200 customers in more than 70 countries. Though celebrating its Silver Anniversary as an OSS software developer, the company boasts a record of never having lost an existing user to a competitive product or service provider.
