**Axesstel Signs Distribution Agreement with Quality One Wireless**

*- Broadens reach in North America -*

SAN DIEGO – October 22, 2009 – Axesstel, Inc. (OTCBB:AXST), a leader in the design and development of fixed wireless voice and broadband data products, entered a distribution agreement with Quality One Wireless. Under the terms of the agreement, Quality One will distribute Axesstel's select portfolio of fixed wireless voice and broadband data products through its extensive network of multiple affiliate companies in the wireless device sales, service, and distribution industry throughout North America.

“In 2009, we have actively pursued business in North America, particularly in U.S. rural markets where broadband connectivity rates are well below the national average,” said Clark Hickock, chief executive officer for Axesstel. “As we are increasing our distribution channels to the tier 1, 2, and 3 network operators and targeted vertical markets, this agreement will expand our North American footprint. Quality One Wireless’ long history of providing product diversity through strategic vendor alliances, as well as post sales services and distribution solutions, makes it an ideal partner to supply the marketplace with our affordable, high performance, best in class wireless devices.”

Tim Ryan, Vice President of Carrier Sales for Quality One Wireless stated, “We are excited about this partnership. We believe the combination of solid products from Axesstel together with the relationships and reputation that Quality One Wireless has in the mobile marketplace will make this a very successful partnership where everyone wins. We look forward to offering Axesstel's innovative products to our customers.”

### **About Axesstel, Inc.**
